## Deseronto Races.

A race for trotting and pacing was held at Deseronto, in which Little Bell had won two heats on Thursday, was finished yesterday, and as the result, a deliberate "No. 1" Minute secured first place, for a consideration to others in the race. The mare rolled under a false name and out of her class, as the Ottawa race in February last, and could not start on an American track. Another alleged "crooked" one in these races was the gelding Island Chief, owned by A. McLean, Guelph, who won third money in the 3 minute race on Thursday.

The manager of trotting matches who permit races, track owners and well known horse men take part in their meetings must be held to be accomplices in fraud, because they can, by paying \$10 to the National American Trotting Association, shut out the race and obtain power to secure honest racing. Failing to do this, they will receive a death blow to a sport which, honestly conducted, will always be popular.

## Board of Education.

A meeting of the Board of Education was held last evening. Present—Mr. Thor, Wm., chairman, Messrs. J. Diamond, J. Doyle, W. Kemp, J. J. M. Maclean, J. H. Simpson, H. Taylor, Wm. Tennant and H. Bux.

The minutes of last meeting were read and confirmed. A communication was read from Mr. T. McGinnis tendering his resignation as a member of the Board, stating that he had been prevented from attending to his duties in a proper manner—Laid over until next meeting.

Applications were received from Misses Gardner and Caldwell for positions as teachers in various schools. The Finance Committee presented a report recommending the payment of salaries and also the following estimates for the year.

Amounts requested for paying teachers, Inspectors and other salaries, \$1,317.00  
Public Schools, \$1,317.00  
For extra salaries, \$70.00

Less Gov't grant and other income, \$1,200.00  
Am't to be paid by City Council for Public Schools, \$117.00

For teachers and other salaries, etc., \$1,417.00  
For repairs, stationery, etc., \$75.00  
Total, \$1,492.00

Less Gov't grant and other income, \$1,075.00  
There will be a deficit of \$417.00  
Total to be paid by City Council for Public Schools, \$1,417.00

The necessary by-law was passed through its various stages and approved. The amount asked is a slight decline from last year, when the estimate was \$14,500. The Board then adjourned.

## Kind Words.

The Chicago Canadian-American says: "A year and a half ago, the late J. L. Jamieson at the Victoria hotel on Tuesday, and it came as a great shock to the many Chicago friends of the deceased's family in Belleville. The young man, who was barely 21 years of age, arrived in his city last year and lost no time in going into the printing business. He was successful from the start and had had several projects that would have netted him a handsome sum. When he took ill a week or two ago, his physicians were not adding largely to his plan with a view to the publication of a paper devoted to a printing line. He was a man of the highest and possessed as well of a large stock of energy and more than a sufficient amount of business acumen. He undoubtedly has become a successful printer and publisher. The deceased's father is a well-known and successful business man. Mackenzie Bowell, the Canadian Minister of Finance, is his grandfather. He was a man of high character and of fine abilities. The remains were taken to Belleville for burial."

## Belleville City and the Bay Bridge.

By the Editor of the *Intelligencer*.

DEAR SIR:—Located in one of the best agricultural districts in Canada, the trade with farmers here is immense. Our railway lines stretching north and west subject to the numerous wharf properties out there must attract the most favorable consideration in the minds of Canadian and American capitalists, who are already favorably impressed with the importance and extent of these great general regions.

Our Bay of Quinte Bridge, spanning one of the most delightful water routes in this country, must soon become a great advantage to the commerce of this city. The grain and fruit crops, the lumber and other products of the surrounding country are rarely shipped in any other way than by the Bay Bridge. The bridge, as it is, is a great advantage to the commerce of this city. The grain and fruit crops, the lumber and other products of the surrounding country are rarely shipped in any other way than by the Bay Bridge.

It might pay the Bridge Corporation Company better if some arrangements were entered into by which the toll might be reduced to, say, one-half of the present high rates; even for one or two years, as a test and guidance before permanent adoption of such a course. Farmers will make long drives to save their quarter-dollars. Numbers of them are now driving a mile or more from the Bay Bridge, drive many miles to other towns and save toll expenses, whereas if the tolls were reduced, Belleville would be their favorite trading resort, and as they would secure fifty per cent more trade from Prince Edward farmers than under the present system, when arrangements would have been entered into by which the toll might be reduced to, say, one-half of the present high rates; even for one or two years, as a test and guidance before permanent adoption of such a course.

There will be large contracts for apples this year; and as there are a great many valuable and extensive orchards throughout Prince Edward County, it will be a most favorable time for effecting the arrangement now suggested, should the toll be reduced to one-half of the present high rates; even for one or two years, as a test and guidance before permanent adoption of such a course.

## OUR BUSINESS VENTURE A MONTH SUCCESS. GOUGH'S Is a Gratified Firm!

Friends, Hastingsonians, Buyers! We are more than pleased. You are the cause of our pleasure! To you thanks! Last week the greatest yet! We were in sailing order, with everything tight and snug and we did our best. The rush was immense. We exceeded our best expectations, and only regret that our staff were unable to serve all we could wish. We put on three more salesmen, and our friends will now find us ready for any emergencies.

## Daily Intelligence

BELLVIEW, THURSDAY JUNE 9

THEY DON'T WANT FAIRNESS.

It is remarked by the Halifax Mail that the best evidence that the Grifts do not want any fair adjustment of the representation to population, is to be found in Mr. Laurier's speech. In that he boldly declared that there was no reason for disturbing the present representation in the province of Quebec. In other words he wanted a number of Grift counties with populations of between ten and twenty thousand, to have as much voice in Parliament as Conservative counties like Hochelaga, with a population of 50,000, Montreal East with 92,000, or Montreal West with 62,000. As the Montreal Gazette very correctly puts it: Mr. Laurier's desire is "to give the Government a redistribution bill, not to secure equal representation. His opposition to the clause that gives Montreal one member every 37,000 of its people, while it leaves the vast representation for the rest of the province less than 25,000, is more suggestive of desire to perpetuate the existing state of affairs than of any other motive."

Here are a few of the counties in Quebec from which Laurier gets his strength:

County.	Population.
Argenteuil	15,163
Chamby	11,704
Chateauguay	13,866
Emmiquingen	13,866
Hochelaga	50,000
LaSalle	11,895
LaSalle	13,704
Montargis	10,353
Napierville	10,102
Rouville	10,019
St. John's	12,286
Vernon	12,207
Yamaska	16,068

These twelve County members will elect 12 Grifts, if given representation according to population could elect only about half that number. Whereas Montreal and Hochelaga with a population of 255,000, that now elect 4 Conservatives, if given representation according to population would have 12 representatives. This explains why Mr. Laurier is so anxious that the representation in the Province of Quebec should not be disturbed. It is because he wants injustice to continue, the present "gerrymander" to stand, that he fights so vigorously against any interference with the present unjust arrangement.

## EDITORIAL BRIEVITIES.

The admission of Mr. Blaine upon his resignation from the Harrison Administration as a bomb shell thrown into the camp of his opponents for the Presidential nomination. Perhaps it may prove, after all, to be merely a commonplace.

Hitherto the English luncheon has been reckoned as 61 pounds of grain, but a change having been made in the standard weight, the luncheon in future is to be doled by 60 pounds.

The railway harvest keeps moving upward. The receipts of the Grand Trunk for the week ending June 4th show an increase of \$27,440 over the same month last year.

## Politics Versus Science.

There are two subjects which are engrossing the conventional powers of the Dominion at present, and they are both worth discussing. One of them is the political situation and the other is the new discovery of science, Hilly Watergate and the Grifts.

The latter we think rather holds the floor, as the Ladies are participating. The goods are now in the market, and the ladies as well as in Gentlemen's cloth and garments.

A Cure for Constipation and Headache. Dr. Blaine Lane, while in the Rocky Mountains, discovered a root which when combined with other herbs, makes an easy and sure cure for constipation. It is in the form of dry roots and leaves, and is known as Lane's Family Medicine. It will cure sick headache in one night, and the blood, liver and kidneys, and for cleansing up the complexion it does wonders. Druggists sell it at 50 cents a package.

## For Over Fifty Years.

Mass Winslow's Sore Throat Syrup has been used for children's throat. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for Diarrhoea. Twenty-five cents a bottle. Sold by all druggists throughout the world.

"How to Cure All Skin Diseases." Simply apply "Bath's Ointment" to the affected parts. It cures itching, scabies, itch, all eruptions on the face, hands, nose, etc., saving the skin from redness and swelling, and giving a clear and healthy complexion. It is a great remedy for all skin diseases. Druggists sell it at 50 cents a package.

## ON TRIAL FOR HER LIFE.

A True Bill Found in the History River Murder Case.

Four men, June 8.—The trial of Nellie Carruthers for the murder of her husband will open to-day. At 10 o'clock the grand jury returned a true bill for murder against the accused, and the trial proceeded with tomorrow.

It began to look very dubious as to whether a true bill would be found, and at ten o'clock the prosecution had about given up, but the grand jury returned a true bill for murder against the accused.

The trial will probably not be concluded before Monday, as nearly every witness from the History River has been summoned to give evidence.

Among the witnesses are Drs. Clark, Boyce and Cameron of Toronto and Dr. Hargrave of the History River. The latter two are for the defence, and it depends largely upon their testimony and that of the expert on handwriting what the verdict will be.

The grand jury heard the evidence not only of Dr. Clark and Boyce to-day, but that of Dr. Hargrave of the History River. They were positively after examining the skill of the accused.

E. J. Mack of St. Marys, brother of Mrs. Carruthers, has been here for the accused, and has been here for months past. He is a brother-in-law of the accused.

## The Stone-Cutter of Lisbon

A NOVEL BY WM. HENRY PECK

"He still labored in the home of Villota's villa," he demanded the voice. Carlos and Galvez grasped each other's hands and trembled.

"This deep, sonorous, commanding voice terrified them. They had not heard it for years. They thought it the voice of the dead."

"It is the spirit of the old Duke," whispered Carlos.

"At least it is his voice," was the shrill, shrill reply to a whisper by Galvez. "Are you, Galvez, still faithful to the house of Villota?" again demanded the voice from the bosom of the pines.

"Answer me," whispered Carlos. "Yes, faithful even to death, cried Galvez loudly, though with much trembling in his voice."

"And are there no enemies of the Villotas near us?" again demanded the voice.

"None," all within the monastery area friends of the Villotas. Who is it that speaks? I demanded Carlos.

"There was no reply, but instantly a flash of fire in the best, then immediately a bright flame, which illuminated the pond and all that surrounded it."

"Then Carlos and Galvez saw plainly what floated on the bosom of the pond. A large figure, in which all the features of the Duke of Villota were to be seen, and a man and two women, one of the latter bound, and with a bandage across the lower part of her face, in the stern of the boat, a great chair, in which was bound and gagged, a short, stout man, and, standing near him, a tall, thin, pale man, in black, white hair and while bearded, who had upon his chest a staff which hung a silver banner emblazoned in gold and silver with the arms of a noble house that had once been powerful in Portugal."

"The Duke of Villota," cried Carlos, starting at the man who bore it. "Has the grave given up its dead?"

"The form and face of the two women servants of the Villotas were plainly visible to those in the boat, and who stood near and called out."

"Who is that with Galvez?" said Carlos. "I am Carlos Remaze," was the reply, in a firm voice, though both he and Galvez had no doubt that all they saw and heard was from the other world."

"Carlos Remaze, right glad am I to know that you live," said Carlos, smiling, and he rose and stepped forward to the chair in which sat the Duke of Villota."

"Are you, my lord?"

"And this stone-cutter—my brother-for?"

"I am Stefano Villota, the subject of the noble Villota, who served so well, Carlos. Give your name. Let us know that I may embrace this faithful old servant of my father, the Duke of Villota."

"The Duke of Villota," said Carlos, and Galvez uttered cries of anger and passion.

"The infamous treachery of Villota was well known to them; and Carlos had not forgotten how eagerly the villain had pursued him, Sanz and Pietro, to gain possession of the infant matron."

"It is known by the Duke of Villota, the confessor, in Lisbon, now," continued the Duke, as Silva in the chair was lifted up by the Duke's Italian servant, who took him to Torra and Torretta, the man and woman you see near him. They have an account to settle with me."

"Silva, unable to speak, and with a most piteous glare, glared the terror and horror of the Duke of Villota."

"He deserves no mercy," said Carlos. "He will receive none from him," while Pietro called the Duke of Villota "the chief traitor," and Galvez cursed himself, shuddering."

"That woman," continued the Duke, "is a dangerous spy. Her name is Estrella is Villota. But no harm is to be done to her, beyond preventing and securing her from Italy as my servants. I do not fear their fidelity to me. My brother is well, Carlos."

"Yes, my lord, but he knows not that he has a brother, or ever had one, nor even that he is a Villota. My search to your grateful father will not suffer me to reveal the truth to him, for the enemies of the Villotas still live."

"Are they alive and are powerful," replied the Duke calmly. "It will not long be so, Carlos. But I have feared, in Lisbon, that Galvez and his wife Estrella live and their ruin. Come, Galvez, conduct us where we may be more at ease. You have some secure place for these prisoners?"

"Sorrow," said old Galvez eagerly. "But are sure, my lord, no pursuit is being made?"

"I do not think it is yet known in Lisbon that the man called Dietro Demetrios has left the house he completely replied the Duke. "If he has progressed as I planned, it will not be known at the royal palace until after midnight, and it is search to your grateful father will not suffer me to reveal the truth to him, for the enemies of the Villotas still live."

"Silva, bound in his chair, was carried to the cells, of the others of the refuge were removed, and the Duke of Villota, with his wife Estrella, and his two daughters, were placed in his cell, and he was left to his reflections in total darkness. Bruised and in great pain, the miserable wretch would have put out his eyes with his own hand had he dared, or had he strength enough left to do it with anything in his reach."

"The woman Estrella was locked up in herself in vain screams and prayers, and having no protection, her grief and bonds having been removed."

CHAPTER XXVIII. TORRA THROWS BRITTS FROM A WINDOW. The meeting of the Duke and Stende was cordial, though the latter did not suspect the relationship between them; Galvez and Carlos, at the desire of the Duke, having taken care that the recognition of Stefano Villota by Pietro and Sanz took place

without the knowledge of Stende.

The latter presented to the Duke, whom he yet he knew only as Dietro Demetrios, the astronomer, the letter of which men- tioned the Duke. The Duke, at a personal of his, said calmly:

"My English friend asks me to tell you in no way grave matter, and I will do so willingly, but not tonight. I must have repose, my son. I am greatly exhausted by the care and events of the past two days. So good-night, and no thanks for the service I have rendered you."

Carlos made haste to attract the attention and presence of Stende elsewhere, and the Duke, with his attendant, well cared for by Galvez.

"Gilles, having been cautioned by her husband, devoted herself to the comfort and repose of Lady Hilda."

In the following day, after all had partaken of the plain but beautiful fare provided by Galvez and his wife, the Duke led Stende apart, and requesting his attention, related to him in the history of the Villota family from its earliest annals, briefly to the time of the last Duke, when his narrative was more minute.

The council of the Bradford Board of Trade has appointed Mr. Erasmus Wiman, of New York, to represent that body at the International Congress of Chambers of Commerce, to be held in London on June 25.

A man's wife should always be the same, especially her husband, but if she changes, she cannot be, for she has been "feeling like a different person," so they say, and their husbands are too.

A Cheeky Proposal. Probably the evolution of American cheek reached its very highest degree yesterday, when Mr. Erasmus Wiman tendered his services to the Toronto Board of Trade as a delegate at the forthcoming meeting of the Chamber of Commerce of the British Empire.

The man who was the author of the scheme which has caused the Canadian indignation against the rest of the Empire in favor of the United States, and a uniform McKinley tariff against the continent, and against England actually desiring to be the delegate of loyal Toronto to a great meeting specially called for the purpose of the commercial interests of that Empire which has for years striven to disrupt, certainly presents one of the most remarkable moves of that remarkable man.

It is known that the Toronto Board of Trade rejected his application, but apparently he is bound in some way to be a representative of Canada at the gathering, and as he will be sent by a dispatch from our Bradford correspondent, he has now his own way of seeking to be appointed by the Board of Trade there. It is known that Mr. Wiman secured the Commercial Union was dead, and a roll call of the British Empire ought not to be considered, but as the correspondence is given to the public, it is not to be known. The business men of Toronto and Council of the Board of Trade would set wisely, but in a matter of such trifling importance it would be well if the correspondence was made public.

STRANGE SPECTACLE.

A Bishop Temporarily Ecclesiasticism 800 Persons at One Time. CLEVELAND, June 17.—There was a highly dramatic scene at St. Nicholas Church last night when Bishop Horstmann denied the rites of the sacrament to nearly the entire congregation. There has been a religious schism in the church for two weeks, following the death of a priest, and numerous fights Sunday and Monday. The bishop has been out of the city. He returned here at once and the congregation was so large that he would address them. He was met by a large number of people. He was met by a large number of people. He was met by a large number of people.

A Useful Marine Instrument. (From the Two Republics). A novel little instrument just invented is attracting great attention in English naval circles. It is called the "submarine signal," and is made of two pieces of board so shaped that when placed overboard from a moving ship it draws water into the full extent of the wire that holds it, and there it stays until the water is drawn in, when it rings an alarm on deck. It is said to work perfectly in practice and that no ship provided with it could be taken without the officer of the deck being instantly apprised of it.

A Pleasant Herb Drink. The best cure we know of for the cold, cough and headache is the pleasant herb drink called "Lemon's Family Medicine." It is said to be the Oregonian's best remedy with simple herbs, and is made for use by pouring boiling water into the dried roots and herbs. It is really a very efficacious remedy in all blood disorders, and is now the sovereign remedy with ladies for clearing up the complexion. Druggists sell the packages at 50c and \$1.

## FURY OF THE STORM KING

More fearful cyclones and thunderstorms.

Terrible storms at Chicago, Minneapolis, St. Paul and Detroit—terrible destruction of property—scores of lives lost.

MINNEAPOLIS, June 17.—A special train from Chicago to Minneapolis, which was en route last evening, was overtaken by a terrible thunderstorm which swept over the land and laid waste scores of happy homes, and sent 20 or 30 miles into the air.

The storm was the most severe yet known in the history of the state. It was a cyclone of the most terrible kind, and the cyclone moved eastward and passed four miles south of Minneapolis, there took a broad curve to the south and passed away south of Wells. Considerable rain had fallen during the afternoon and about 6 o'clock the atmosphere became almost suffocating.

Curiously shaped clouds appeared over the southwest and many people gazed in wonder at the sight. About 8 o'clock the wind rose and the cyclone cloud was seen advancing and tearing under everything in its course. It passed two miles west of the city, and it is reported that there struck the district, and that the school children were the first to be killed.

## County Councilors.

THURSDAY, JUNE 16.

Morning Session.

Council met at 10 a. m., the Warden in the chair.

The minutes of Wednesday's session were read and confirmed.

Mr. J. F. Wills attended at the request of the Council and stated the particulars of the accident which happened to Mr. Chas. Hudson, Jr., on the 10th day of May last, by which accident Mr. Hudson lost half of his right thumb, which was torn from his hand. The accident was caused by an obstruction placed on the side of the road which had been left there for some time and had frightened a number of horses. The obstruction was a large mass of stone, and was taken away with a day or two after the accident.

The statements made before the Council were not prejudicial and for the purpose of explanation and to give the Council the opportunity of making a statement before action was brought.

The matter was referred to the Committee of the Whole on Ways and Means.

A communication was read from Mr. Thos. Graham, of Teesdale, asking the Council to pay him \$18 for expenses incurred by him in burying an Indian, who was an Indian.

Mr. Haggerty stated that the Indian was a poor man, and worked at Crookston for a short time when he died. Mr. Graham presented a bill to the Township Council, amounting to \$60, but the Council did not pay it, as they considered it too large.

The matter was referred to the Committee of the Whole on Ways and Means.

The Warden read a statement of the County Treasurer showing the receipts and expenditures since January 1st, 1892, to the 1st of June. Laid upon the table.

Mr. Vermilyea, chairman of the Finance Committee, presented the following report:

That large improvements have been made to the court house and gable since the January session.

That neither of the offers for the supply of coal accepted, as they are unsatisfactory.

That the County Treasurer has been largely instructed to change the insurance now held by the County Insur. Co. to the Royal, of which Mr. Thos. Lister is agent.

That the Warden be and is hereby authorized to convey and attach the corporate seal to the corporation of each of the lots taken over by the County from the estate of the late W. H. Fenton, as the Treasurer and Chairman of Finance and Public Property Committee shall be able to secure satisfactory title.

That the sum of \$100 each be allowed to L. A. Appleby and Jno. Marsh, for services in connection with the recent improvements to the court house and gable.

That the registry office be cleaned out, and the fences about the premises be repaired.

That strips of carpeting across two rooms be allowed J. Marsh, and L. A. Appleby be allowed to paper two rooms in the gable residence.

N. VERMILYEA, Chairman.

The chairman stated that the improvements made to the gable and court house would cost about \$1,000.

On motion the report was received and adopted and referred to the Ways and Means Committee for appropriation.

Mr. Aylworth moved, seconded by Mr. Martin, that a committee, composed of Messrs. Vermilyea, McLaren, Deuch, Martin, Cross and the mover, be appointed to consider the respective claims of the High Schools entitled to aid from the Council.

Moved by Mr. McLaren, seconded by Mr. Aylworth, that the consent of the Council be given to the township of Oakton to open a road on lot 17, 7th concession, 40 feet wide.

Moved by Mr. Murphy, seconded by Mr. Clare, that of the sum to be expended on the improvement of the road, a sum of \$200 of said sum be expended on the road from Sikes to Marlbank—Carried.

The Council adjourned until 2 o'clock.

Afternoon Session.

Council resumed at 2 p. m.

A delegation was present from the township of Oakton to apply for a road to be laid out by the Township Council, making a division in school section No. 14, in the 7th concession of said township.

On motion the delegation was heard.

David McMahon said that school section No. 14 was large, and a road was needed. The Township Council passed a by-law dividing the section, but he claimed was an unfair division. The territory was about equal, but the assessment on the east side was some \$9,650 more than on the east side.

Mr. Montgomery, Reeve of Oakton, said that a plan was presented to the township Council to make a division. The Council did so, and considered the matter in an impartial manner, and the division he considered a fair one.

Mr. Williams, 1st dep. Reeve, was sorry that the appeal had been made. He did not think an unfair division had been made, but the best division possible under the circumstances.

Mr. Henry Brown contended that the division was unfair. It was unfair to both sides. He was not in favor of the division.

Mr. Lynn was presented and contended that the division was a fair one.

Mr. Aylworth stated that if any one was liable to Mr. Hudson, he was of the opinion that Mr. Hudson, the owner of the machine, was. He did not think the Council was liable. He moved, seconded by Mr. West, that the Warden be instructed to defend the action on behalf of the County, if it is so ordered, through the County Solicitor, Mr. John Bell, Q.C.

On motion the committee was appointed to prepare a report, and adjourned until 10 o'clock Friday morning.

FRIDAY, JUNE 17th.

Morning Session.

Council met at 10 a. m., Warden Cross in the chair.

The minutes of Thursday's session were read and confirmed.

The Special Committee appointed to examine O'Brien's bridge reported as follows:

A four committee reported that the January session to examine O'Brien's bridge be left to submit that we examined the bridge to see if it was a bridge fit for public travel for one year.

That your committee recommended that the bridge be built by the County, and that the bridge be given in the fall of the year previous to building, so that alterations could be built during the winter.

Your committee also believe that the bridge was a bridge fit for public travel for one year, making 2 spans of 150 feet each.

JAS. HAGGERTY, Chairman.

The report was received and adopted.

Mr. Haggerty, Chairman, presented a report.

A recommendation of \$200 to be given to the township of Oakton for the purpose of repairing a bridge caused lengthy discussion.

Mr. Vermilyea objected to \$200 being given to Oakton for the purpose of repairing a bridge if it was not taken out of the estimate of the Grand Roads committee.

Messrs. Montgomery and Williams spoke in support of the recommendation of the committee. Rawdon needed the amount for the purpose of repairing the bridge.

Mr. Haggerty said the \$200 was a special grant, and the committee did not intend it should come out of the estimate.

Messrs. Hurley and Thompson said they were members of the Grand Roads committee, and understood that the \$200 was to come out of the estimates of the committee, and not a special grant.

Mr. Vermilyea thought that the report was irregular and should be referred back.

After some further discussion the report was referred back to the committee for further consideration.

Mr. John Johnson, of the Public School Inspector, for South Hastings, and Mr. W. Mackintosh, Inspector for North Hastings, presented their reports.

Mr. Aylworth moved, seconded by Mr. Vermilyea, that the thanks of the Council be and are hereby given to the two inspectors for their able and satisfactory reports. Good results were secured from the expenditure of money for the purpose of education. The reports were able ones.

The recorder said he was exceedingly pleased with the reports, and that the two inspectors had been very successful in their duties. Each report was a credit to the Council.

The committee of the whole on special communications resumed, Mr. Holgate presiding.

The matter of the appeal against the By-law passed by the Township of Rawdon, in relation to a division of school section No. 14, was considered.

Mr. James D. Riddell, of Stratford, brother of the able and efficient Superintendent of the Midland Division of Belleville, the new Superintendent of the Central has acquired his railway experience in the Superintendent's office at Stratford, first of Major Larnard and afterwards of Mr. W. R. Tiffin, two of the ablest railway managers in Canada. These acquaintanceship and the fact that in Mr. Riddell the directors of the Central has secured a first-class Superintendent—a courteous and tried officer, who has been trained in a good school, probably one of the best on the continent; and that he will fill his new position with credit to himself and to the advantage of the railway is an assured fact.

Another change made in the staff of the Central is the promotion of Mr. George Ollman to the Assistant Superintendent, and to the position of Secretary Treasurer.

the longest day, to say what part of the

world we are talking about, as will be seen

by the following list, which tells the length

of the longest day in several places. How

unfortunate are the children in Toron-

to, where Christmas day is less than

three hours in length.

At Stockholm, Sweden, it is eighteen

and one-half hours in length.

At Spitzbergen, the longest day is three

and one-half months.

At London, Eng., and Bremen, Prussia,

the longest day has sixteen and one-half

hours.

At Hamburg, in Germany, and Danzig,

in Prussia, the longest day has seventeen

hours.

At Wardsburg, Norway, the longest day

lasts from May 21 to July 22, without in-

terruption.

At St. Petersburg, Russia, and Tobolsk,

Siberia, the longest day is nineteen hours,

and the shortest five hours.

At Toron., Finland, June 21 brings a day

more than twenty hours long, and Christ-

mas one less than three hours in length.

At New York, the longest day is about

sixteen hours long, at Montreal, it is sixteen

hours, and at Belleville 15 hours and 40

minutes.

## State Aid for Scientific Research.

(From the Philadelphia Record.)

The English Government annually grants

the sum of \$20,000 to be applied in render-

ing assistance in particular scientific re-

search, the amount being administered

by the Royal Society. Seven boards, re-

presenting the principal branches of science,

are appointed to consider the applications

for assistance, and grant such sums of

money as may be required, cutting down

or adding to the original demand when

necessary.

Progress.

It is very important in this age of vast

material progress that a remedy be found

to the taste and to the eye, easily taken,

capable to the stomach and healthy in its

nature and effects. Possessing these qual-

ities, Syrup of Fig is the one perfect laxa-

tive and most delicate purgative.

Mrs. W. W. W. & Sons' Syrup of Fig has

been a household name, and its use is de-

scribed by the most eminent physicians of

the world.

## Daily Intelligence.

BELEVEILLE, TUESDAY, JUNE 21 1892.

### THE CITY COUNCIL.

At last night's meeting of the City Council, Ald. Walmaley was unanimously appointed Chairman of the Executive Committee, which position was vacated by the retirement of Ald. Anderson. The appointment will meet with general approval, as Ald. Walmaley is an excellent business man and an energetic and untiring worker.

### THE BRIGADE CAMP.

It is to be hoped that the Brigade Camp, which opens today, will be favored with fine weather, so that the men may have a pleasant fortnight in their canvas dwellings and a good opportunity of perfecting themselves in drill.

All necessary preparations for their accommodation have been made; the camp is located in a pleasant, pretty and healthy place; and they will find a warm welcome in our beautiful city.

### A PERSONAL MATTER.

A second letter from Mr. F. T. Ward, re an error in our Stirling correspondence which caused him annoyance, has been received. As, however, the matter is a mere personal affair between Mr. Ward and our Stirling correspondence, and as a full explanation has been given by the correspondent, we cannot allow the further use of our columns in regard to the subject. In reply to an enquiry by Mr. Ward, we answer that manuscript, after being destroyed in the fire, was not sent to us, and we have no doubt that the error originated with the compositor.

### Heads That Need Shade.

The summer solstice, or standing of the sun, is upon us, when the sun seems to pour his beams on us and our heads are parched. We find it hard enough to bear in our own every-day life, but we find it in sympathy with the sun, and the sun is coming fresh from the shady slopes, dress, college, and from their suitable farm offices to go through their members, drill, parade and manoeuvres, in their heavy uniforms and shades of caps, in the heat and glare of between 80 and 90 by the thermometer.

We cannot resist too fully the frailty of the mortal part of us, and the protection it needs, nor can we wear the sun in the extreme danger to the spine, brain and heart, in being over heated.

Any one who has a head, learns to dread the effects of heat in its subtle form (that appears) that even when one is in the shade of a house, as well as of a tree, and when we think that no rational being deliberately puts on heavy clothes or options, and goes through the most violent exercise with head and eyes blinded to the glare of the sun, and the shade and pleasure of drill and "volunteer" must be taken out of it by such discomfort, we wonder that climate changes are not ordered in our uniforms, and that our military authorities do not remember that our day does not wear a veil like the Egyptian, that heads need shade, and spine stand the strain of over heated blood through them—also that common sense is needed in military as well as in ordinary life.—Cont.

### The Commercial Man's Grip.

I have long looked for a preparation that would keep my head clear of dandruff, but always failed to find any material benefit until a friend recommended Afta Dandruff, which I used.

It not only removed the perfect scurf, but gave me a clear complexion, and stopped the annoying itching of the scalp, and rendered the hair soft and pliable without leaving an appearance of a dressing being used. It is now a permanent cure for my dandruff. It is pleasant to use, and with pleasure I recommend it.

D. O. ROBLIN, Representing H. Corby, wholesale druggist, Belleville, Ont.

### Cheap, Efficient, Prompt.

A marvel of cheapness, efficiency, and promptness is contained in a bottle of the famous remedy, Falcin's Famous Corn Remedy. It cures corns, blisters, and all other troubles, and acts quickly but not painfully, that nothing is known of its operation until the corn is healed. Beware of substitutes offered for Falcin's Famous Corn Remedy—safe, sure, and painless. Sold at druggists.

## SPECIAL CORRESPONDENCE

### CONSECON.

(From our own Correspondent.)

CONSECON, June 20th. Mrs. A. D. Palmer, of Trenton, leaving in her daughter, a beautiful child, Mrs. Baird, is visiting friends at Woodstock.

The Farmers of Industry are flourishing. They have about fifty members, and still they are growing. They intend a large stone monument to be erected in the town of Woodstock, in honor of the industry of the people.

Mr. Lyman Smith, who has been very ill, is now able to leave his bed, and is very well. He is now at the home of his wife, Mrs. Smith, in Woodstock.

Mr. George Baird's team ran away a few days ago. Luckily he and his horse came without a scratch, but the cartage was badly smashed.

Miss Mary Ford has been staying a few days with her sister, Mrs. Baird.

We are having fine weather, and the prospects of fall harvest are bright.

The experience of the manufacturers of the  
"Mystic Navy" tobacco is a valuable  
lesson in political economy. They are  
their customers that brand, the tobacco  
made of the finest Virginia leaf was always  
sold at fancy prices, and put up in some  
fancy style of manufacture. It was thought  
that only the rich would buy such tobacco,  
and at this old price none but the rich  
could buy it. The makers of the "Mystic  
Navy" resolved to stop the manufacture  
of tobacco of all its fancy costs and  
sell their product at no low a rate that no com-  
petitor could possibly undersell them with  
the same quality of article. From the very  
first, until now, their rate of profit has been  
a uniform percentage upon the cost. It is  
their enormous sales which make the low  
rate of profit a satisfactory one in the ag-  
gregate, and also gives them their firm hold  
upon the market. Their success is an ex-  
cellent lesson for manufacturers to study  
over.

## Their New Pastor.

Rev. E. N. Baker, M.A., B.D., the  
newly appointed pastor of Bridge street  
Methodist church, yesterday accepted the  
pastor.

In the morning he preached to the  
volunteers and in the evening delivered his  
first discourse to the members and adher-  
ents of the church. There was a large  
congregation present. The sermon was a  
practical one and was listened to with in-  
terest. A hymn was given before the  
prayer. 6 o'clock the fourth and seventh  
baptism were administered, and the disci-  
ples again with rejoicing, bringing his  
sheaves with him.

The Bible language was figuratively; its  
object is to bear on the spiritual kingdom  
of God on earth; we cannot see it in the  
spiritual kingdom. We know what it is to  
suffer, and in the harvest time the  
superintendent, teachers in the Sabbath  
school and the members are scattered  
seeds and will bring with them sheaves at  
the harvest. The husband reapers the  
great harvest of seed sowing. If no seed  
were sown there would be no harvest, hence  
there would be no result. The seed and  
death would be the result. Our ex-  
istence depends upon the work of the  
harvest. The life of the community depends  
upon the faithful sowing of God. If it were not for  
the sowing of pure seed, which is the word  
of God, all would be dead, and the world  
would doubtless be destroyed.

There were some 250 of the volunteers at  
the church which was filled after the  
devotional exercises, conducted by Rev. E.  
N. Baker, of Lloydminster, and Rev. M.  
Powell, curate of St. Thomas church, the  
former divine preached an able discourse  
from 2 Timothy, II, 3. "Thou therefore  
count them that are thy friends as enemies."  
The sermon was a good one, especially  
at the junction of Front street, large num-

Outrageous Caricatures.

London, June 29.—The Royal Gazette

has published the Queen's proclamation

dissolving Parliament and summoning the

new Parliament to meet on Thursday, Aug.

1st. The proclamation is signed by the

Queen's speech, proroguing Parliament

and stating that the time has arrived when

it is expedient that the electoral body of the

country be consulted by the assembling of a

new Parliament. I have therefore assumed

my power for prorogation at an earlier

period than was usual.

"I am glad to record that my friendly

relations with foreign powers are un-

altered.

Treaties have been duly ratified refer-

ring the difference with the United States

with respect to the Behring Sea to arbi-

tration.

Referring to the bill passed at the session

just ended, the speech says that the ar-

bitration bill passed by the House of Com-

mons, which was signed by the Queen, is

now before the Senate. The bill is a

valuable measure, and it is of great im-

From what we have heard and a few things we know, Belleville is going to look and sizz on the 1st July—the silver wedding day of our Dominion.

By a seeming unanimous consensus all our merchants have entered in the spirit of celebration and will control the day in the success of the day by the use of clean signs and illuminations that bid fair to eclipse any previous attempt at being as lively as Chicago.

Work is generally going on by the first of next week all of our citizens are making their own transformations. We have seen some excellent sketches of the use of the device and—well we will leave you to be surprised and take tales out of school.

Our Chief is certain though, Scotland's Flag and Chinese and Japanese are entering largely into the decorations, and for those who have not already entered their decision into what to do and how to do it, but better call and get what they want and have suggestions and sketches thrown in. Remember the advice about the

## Daily Intelligence.

BELLEVILLE, THURSDAY, JUNE 30  
CANADA'S PROGRESS.

The first quarter of Confederation, being over the age of completion, the time is opportune for a national stock-taking, by which the reader may judge, from the perusal of facts and figures, of the success of the result of the union which was consummated on July 1, 1867.

It is unnecessary to go back to the first ten years of our national life, because the facts have been fully reviewed in the past, but the showing for the past ten or twelve years—limited only by the date for which the official returns are accessible—will suffice for the purpose.

Outlying Alaska, the Dominion has 488,796 square miles more than the United States. Our Government at Ottawa rules over nearly as much territory as the whole of Europe.

The census shows that the total population of Canada in 1881 was 4,324,810, and in 1891, 4,329,411, an increase of 504,601, or 11.66 per cent.

The amount of capital invested in manufacturing industries has more than doubled during the past ten years, the increase being from \$155,890,822 in 1881 to \$353,830,817 in 1891.

The manufactured outputs for Canada in 1872 were valued at \$107,561, and in 1882 at \$115,238; while in 1891 the value of importations was only \$4,013,508.

The quantity of raw cotton imported for home manufacture has increased from 2,226,810 lbs. in 1872 to 2,439,009 lbs. in 1882, and to 36,635,317 lbs. in 1890.

Sugar under Cartwright tariff, ten lbs. for a dollar.

Sugar under Foster tariff, twenty two pounds for a dollar.

The value of animals and their products exported from Canada has increased from \$14,019,497 in 1875 to \$20,997,749 in 1891.

The exports of Canadian produce have risen in value from \$62,431,025 in 1878 to \$188,001,066 in 1891.

The number of post-offices in Canada has increased from 5,375 in 1878 to 8,061 in 1891.

The postal revenues of Canada has increased from \$1,620,022 in 1875 to \$3,741,887 in 1891.

The amount of money orders issued in Canada in 1878 was \$7,130,895, and in 1891 it was \$12,478,178.

The amount of money deposited in the post-office savings banks increased from \$2,744,454 in 1875 to \$21,716,045 in 1891.

The value of wheat, flour and other breadstuffs imported into Canada in 1878 was \$13,736,325, and in 1890 the value of these imports was \$2,997,633.

The number of cattle exported from Canada in 1878 was 29,925, valued at \$1,162,384; while the number exported in 1891 was 117,765, valued at \$8,774,789.

The quantity of cheese exported from Canada in 1878 was 1,294,194 lbs., and in 1891 it was 117,416,051 lbs.

The value of cheese exported from Canada has arisen from \$3,997,591 in 1878 to \$10,434,229 in 1891.

The quantity of cod produced in Canada has increased from 1,054,091 tons in 1878 to 2,750,000 tons in 1890.

The value of the yield of the fisheries of Canada has increased from \$13,215,678 in 1878 to \$17,714,702 in 1890.

The number of miles of railway in Canada has increased from 6,143 miles in 1875 to 12,356 miles in 1890, and 14,004 in 1891.

The number of passengers carried annually on Canadian railways has increased from 6,443,924 in 1878 to 12,821,262 in 1891.

The quantity of freight carried by Canadian railways has increased from 7,858,472 tons in 1878 to 20,797,469 tons in 1890.

The amount of bank notes in circulation in Canada has risen from \$19,101,191 in 1878 to \$37,182,708 in 1891.

The total deposits in the chartered banks of Canada have increased from \$71,990,160 in 1878 to \$151,946,632 in 1891.

The total amount of fire insurance in Canada has increased from \$409,399,701 in 1878 to \$707,749,562 in 1890.

The total amount of life insurance in

force in Canada has increased from \$84,701,037 in 1878 to \$248,307,002 in 1890.

The amounts of principal and interest received and in default on mortgages held by the loan companies in Canada, was in 1880, \$4,130,000, while in 1890 it was only \$2,005,000.

The amount received in the total mortgages held by the loan companies in Canada is less than 1 per cent.

The foreign trade of the United States was \$20.15 per head of population in 1890, while the foreign trade of Canada in the same year was \$43.75 per head of population.

No country in the world possesses so much iron as Canada. The supply is practically inexhaustible. Near Ottawa is a hill which would yield one hundred tons of ore per day for 100 years. Nova Scotia from 1 to 2000 ft. of the earth. There are only two or three known deposits of nickel in the world, and that at Sudbury is the greatest. Our wheat production is 100 times as much as the United States. There are only seven countries possess a greater telegraphic mileage than Canada, and with the exception of the U.S. and Australia, no colonies possess the same telegraphic facilities in proportion to population. This is shown by the following: Great Britain and Ireland has 100 offices to 1,713 of population; the United States has one to 3,390; Germany has one to 2,886; Canada has one to 2,038.

Our canals have cost over fifty-one millions of dollars, and by means of them we have the largest and most important system of inland navigation in the world. From Port Arthur, at the head of Lake Superior, to Liverpool at 4,494 miles, and of this distance we have navigable water within one or two days' run. The St. Lawrence River is 2,400 miles long. Our net public debt in 1890 was \$237,633,202. Great though this sum is it must be remembered that nearly the whole of our public debt has been created by the construction of railways and canals, and that the railways and canals, and not as in European countries and the United States, by aggressive and defensive wars. It is also worth remembering that the ungranted and unpledged Crown Lands belonging to the Dominion would, at one dollar per acre, pay the whole public debt, which just equals the amount spent upon our public works. I may be incidentally reminded that the fact that the only recognized country in the world which has no public debt.

Amount per head of public debt in various countries, 1890: West Australia, \$102.50; France, \$100.32; Great Britain at 1890, \$97.36; Italy, \$75; Canada, \$45.81; Austria, \$40.95; United States, \$24.80.

Number of years of revenue required to pay off the public debt of various countries, 1890: France, 2.94; Italy, 7.81; Great Britain and Ireland, 7.73; Italy, 6.90; Russia, 6.63; Canada, 8.96; United States, 3.84.

Taxation per head in various countries, 1890: France, \$1.11; U.S., \$1.11; Spain, \$1.10; Canada, \$1.10; Great Britain and Ireland, \$0.97; Italy, \$0.82; Spain, \$0.80; Austria, \$0.74; United States, \$0.21.

Such is, in part, our national stock-taking. It shows a healthy progress, and a position which is envied by that of few, if any, civilized people.

**The Banana Sale.**

The Messrs. Vipond have every reason to feel pleased with the result of their latest direct import from the West Indies. The assembly, which landed her cargo of 9,904 bunches of bananas in a splendid condition, and it found a very ready sale. At noon to day fully seven-eighths of the lot had been disposed of, and the remainder, which is valued at \$2,700,000, is expected to be sold by the end of the week. The 230 bunches of coconuts sold at \$2,700,000 per ton. The steamer also brought in the export trade barrels of pineapples, which landed in prime condition. Montreal Gazette, June 29.

Dr. O. C. Baker, of Ambler, N. S. says: "I have been acquainted with Scott's Emulsion of Cod Liver Oil, with Hypophosphites, for years, and considers it one of the finest preparations now before the public. It pleases my family, and I do highly recommend it for all wasting diseases of children and adults. Sold by Druggists, \$6.00, and \$1.00.

We do not know of any other preparation so well adapted to the public for a short time as Scott's Emulsion of Cod Liver Oil, but when we consider that three-fourths of our Canadian people are afflicted with kidney troubles in some form or other, and that Scott's Emulsion is a quick and permanent cure for all these troubles, the large and increasing demand can be scarcely wondered at. Sold by all dealers or by mail on receipt of price, 25 cents per box. Dr. L. A. Smith & Co., Toronto.

**A Pleasant Herb Drink.**

The best cure we know of for Constipation, and it is a pleasant and healthy drink called Laura's Family Medicine. It is said to be the Oregon grape root, combined with the most delicate herbs, and used by pouring boiling water into the dried root and herbs. It is remarkably efficacious in all blood disorders, and it is the best foreign remedy with ladies for clearing up the complexion. Druggists sell the packages at 50c and \$1.

OR CREAM WILL PRINCIPALLY SWING FOR HIS CHANCE.

A Montreal man, who came to America to hunt up the career, an attempt to swindle an insurance company, has been arrested in Chicago.

Montreal, June 29.—Many incidents of the Canadian career of Neil or Cream, the London physician, are now being recalled, and it is a well-known fact, that the London physician, who was arrested in the winter of 1877, together with a number of other Canadian physicians and Cream was studying at the hospital at this time.
